

Communiqué

We are pleased to invite you to the International Forum “Intelligent transport systems of Russia”, which will take place on September 27-28, 2016 in the President Hotel, Moscow.

The Organizer of the Forum is J Comm LLC supported by the Ministry of Transport of the Russian Federation, the Federal Road Agency, The State Duma of the Russian Federation, “GLONASS” JSC and European Union Road Federation.

Growth of information technologies market and existing system-wide implementation of intelligent systems into transport infrastructure require professional discussion on the federal level.

The goal of the Forum is to consolidate opinions of all the participants of the intelligent transport systems market at all levels such as the federal road network, railroad transport, megapolises and the regions of the Russian Federation. It is essential to work out further steps to ensure cooperation between executive authorities, commercial companies, scientific institutes, and international experts.

**On behalf of the Organizers we would like to invite you to take part
in the International Forum “Intelligent transport systems of Russia”!**
